INDUSTRIAL OVENS 250 °C IA 250

Definition: Forced convection electric oven for all applications.

Construction: Monobloc type oven. Interior in aluminium and exterior in galvanised plate.

Insulation: Rock wool insulation of all surfaces, including door.

Ventilation: Adjustable horizontal ventilation, and adjustable exhaust.

Heating: Battery of shielded electrical resistors.

Electricity:

3 x 400 VAC,
frequency 50 Hz.

Regulation:

Axron Swiss PID
temperature
controller, timer
and hour counter.

Documentation:

CE marking
and operating
instructions in
English.
